

Territorial-Landworks, Inc. seeks an entry-level **Survey Technician/Drafter** in our Missoula, Montana office.

Qualifications:

We are looking for energetic and knowledgeable people to join a progressive and growing company. Our ideal candidate has a strong work ethic and a high regard for the survey profession with strong technical abilities and wants to be part of a growing company that looks to hire the best in the industry.

The baseline qualifications for the position includes education and/or experience in either surveying or design drafting. Preferred LSI licensure or ability to obtain licensure, but not required. Experience with Auto CAD preferred.

Essential Functions:

- Attention to detail and organized.
- Collects data and gathers information or documents.
- Performs standard computations or analysis.
- Conducts property research.
- Performs basic field survey work.
- Travel to field required. Must have valid driver's license.
- Familiarity with survey technology and skills, including PLSS, GPS principles, etc.
- Meet the physical challenges of survey field work
- Effective communication skills, both oral and written. Field notes must be legible.

Additional Responsibilities:

- Follows all safety requirements.
- Familiarity with survey data collection using GPS and robotic total stations.
- Construction staking, ALTA surveys, plats, deeds, legal descriptions, research, etc.
- Provide training and mentorship for survey staff
- Assists in determining equipment needs and makes necessary minor purchases

Expectations:

- Position is 40 hours per week.
- Job location is based in Missoula, Montana, with travel to outlying areas.
- Position is mostly (70%) in the field performing survey work. Other time (30%) will be spent in the office on production tasks.
- Field work will require the ability to walk on uneven terrain for up to 8 hours per day.

Benefits: TLI offers a **highly competitive salary**, health/vision/dental insurance, 401k, paid holidays, paid sick and vacation leave, holiday and summer parties, life insurance, long and short term disability, gym memberships, flexible schedules, professional development training, and additional benefits.

Territorial Landworks provides engineering, surveying, and land planning services for architects, commercial and residential developers, cities and counties, government agencies, oil & gas companies, and schools. With 3 locations across Montana, TLI employs nearly 50 professionals. Our project experience includes commercial and residential buildings, retail, industrial, parking, highways, roadways, and oil and gas pipeline and pad projects.
