### **MARLS Scholarship Foundation's Annual Scholarship Auction and Fundraiser February 22, 2018 Radisson Hotel, Helena, Montana**

The Montana Association of Registered Land Surveyors, (MARLS), is a statewide non-profit association whose membership includes Professional Land Surveyors from across Montana, the surrounding states, and Canada. The MARLS Scholarship Foundation, (MSF), was created to raise money for student scholarships and awards. Each year MSF holds a fundraiser in conjunction with the annual MARLS Conference. This is the main fundraising event for the Scholarship Foundation.

The MARLS 2018 Conference will be held at the Raddison Hotel, Helena, Montana on February 21 - 23, 2018. The MSF fundraiser consists of games, raffles, a silent auction, and a live auction throughout the Thursday night banquet evening. Among the many attendees, bidders at the auction include licensed surveyors, exhibitors, seminar presenters, spouses, students, guests, and surveyors in training. This fundraiser is always one of the highlights of the conference.

The Scholarship Foundation distributes various types of scholarships and awards to eligible students.

- 1<sup>st</sup> Year Scholarships are available to students entering a curriculum recognized by the Montana Board of Professional Engineers and Land Surveyors as meeting the requirements for a person to eventually become a Licensed Professional Surveyor.
- 2<sup>nd</sup> Year Scholarships are available to students entering the 2<sup>nd</sup> year of a 2-year surveying curriculum or the 3<sup>rd</sup> year of a 4-year surveying focused curriculum.
- Trig-Star Scholarships and Awards are available to Montana High School students who participate in the Trig-Star Program. The Trig-Star Program is a national mathematics competition held annually to test students' practical application of Trigonometry. There is no requirement on the Trig-Star Scholarship recipients to enter a surveying-focused curriculum.

In the past many years, MSF has awarded over \$170,000 in scholarships and awards to students across Montana. This has been made possible by generous donations to the scholarship auction and fundraiser. The MARLS Scholarship Foundation continues fundraising efforts to maintain support of students continuing their education.

In 2011, MSF created the MSF Surveyor Assistance Fund. This fund is dedicated to helping our surveyors and their families in times of crisis.

We would like to ask you to donate an item(s) to these worthwhile causes. The donated item does not need to be surveying related.

Thank you for your participation in the MSF annual scholarship auction and fundraiser, your support is appreciated.
