Surveyor

Surveyor

TD&H Engineering is seeking an individual for full time employment as a land surveyor technician, who would work under the direction of a licensed land surveyor.

TD&H is a consulting engineering firm offering a full range of services throughout Montana, Washington, Idaho, North Dakota and Pennsylvania. We serve a diverse clientele ranging from individuals and rural water districts to large corporations in populous cities. We assist our clients through all phases of their projects, starting with concept development through construction completion. TD&H has been satisfying clients since its incorporation in 1965 and has built an impressive resume of successful projects.

Duties:

- Operation of Trimble GNSS as well as conventional and robotic equipment.
- Construction layout, site topography surveys, and property boundary surveying.
- Process survey data using Trimble Business Center and Carlson Survey and Civil 3D.
- Draft exhibits, plats, and Certificates of Survey using ACAD.

Qualifications:

- Have a high school diploma. Associates surveying degree or equivalent from an accredited post-secondary institution preferred. Must be willing to attain LSI certification. A current student in a surveying program will be considered.
- Strong construction background and AutoCAD experience desirable.
- Enjoy working outdoors and be able to work in all types of weather.
- Have a valid driver license and insurable driving record.
- Experience in control, boundary, topographic, and construction staking preferred.
- We are looking for an individual wants a Land Surveying career and has commitment to producing high quality work. An ideal candidate will be a team player, exhibit leadership potential, have strong people and communication skills, and be self-motivated.

The position would be stationed in Bozeman, MT, with the willingness to occasionally travel and work away from the main office. Compensation will be dependent on experience. To apply, send an email with resume, cover letter, and list of references to human.resources@tdhengineering.com.

Why TD&H?

Join a dynamic team of individuals at TD&H. We offer a competitive benefits package and are an Equal Opportunity Employer. Our most valuable asset here at TD&H is our employees. At TD&H we strive to provide employees with challenging and rewarding work in a positive and professional work environment.
