

Red Lodge Surveying is looking for a student or individual who is working towards their PLS licensure or is currently licensed. RLS is a small family oriented, survey only office located in Red Lodge. We serve Carbon, Yellowstone, Stillwater and other surrounding counties for mostly cadastral and boundary survey needs. We can train a survey student for field work and CAD work on a seasonal basis if desired. This position would turn into a fulltime job for a survey student who is on track for their LSI and eventually PLS. This position is also available for someone with their PLS license.

Please send resumes or questions about details to Kate Stout at kstout@rlsurvey.com. Thanks for your interest!
