

FVCC Adjunct Instructor - Surveying - Job Opening

This is an 8-week course with instructor discretion as to the scheduled class times. It would also be possible to have synchronous remote lectures with required lab time being scheduled over a few weekends.

Here is a snip of the Summary portion of the posting:

The Adjunct is responsible for teaching Survey-grade GPS Control Analysis in the Survey AAS program. The course may include alternative delivery methods; day, evening or weekend times. The course is scheduled to be taught from 3/9/2022 to 5/12/2022.

[FVCC Adjunct Instructor - Surveying](#)

This course is a review of basic Global Positioning System principles, maintenance and adjustment of equipment, instruction and practice in field and office procedures for collecting and processing survey-grade GPS data, student-designed projects with instructor supervision utilizing both fast static and RTK GPS survey techniques to extend a control network, and master field and office procedures.
